

NBX[®] TELEPHONE LABELS

Instructions:

1. Click in any of the label blocks, type new text, and then press Tab to move to the next text field.
2. When you have finished editing the labels, click anywhere outside of the labels to ensure that all your edits take effect.
3. Click the Print button. In the Print dialog box, clear the checkbox for Fit to Page, Shrink to Fit, or any similar choice so that the label size does not change when you print.
4. Click OK.
5. Cut the labels out and place them in the label holders on the telephone.

Note:

Adobe[®] Acrobat[®] Reader 4.0 and 5.0 allow you to print files but not to save them. To save files, you need to purchase the full Adobe Acrobat[®] product.
