Special Exceptions for DTP, Td, Polio, and Hep B

Children less than 7 years of age: The 5th dose of DTaP/DTP/DT (similarly, the 4th dose of polio vaccine) is not necessary if the 4th DTaP/DTP/DT (3rd dose of polio) was administered after the 4th birthday.

Children 7 years of age and older: A history of 3 doses of DTaP/DTP/DT/Td and 3 doses of polio vaccine meets the minimum requirements of the law.

Students in grades 7-12: A Td booster at age 11 years or later is not required for students in grades 7-12 whose most recent Td was given after their 7th birthday but before their 11th birthday. Instead, it will be required 10 years after the date of the most recent dose. Enforcement of the Td booster requirement will be reinstated in the fall of 2004 for all 7th-12th graders.

Students 11-15 years of age: A 3rd dose of hepatitis B vaccine is not required for those students who provide documentation of the alternative 2-dose schedule.
