

## **School Practice for Transportation To and From Games**

In the past we have allowed students to return from games with their parents. We have not allowed students to ride home with other parents or students.

After discussion with the Board and Administrative team this is our practice.

Students on Jr. High or C teams can leave early from sporting events if they are leaving with a parent. The parent must provide a note to the coach and check in with the coach prior to leaving the meet/game. Students on these teams can be allowed to leave with another parent provided the following procedure is followed.

- Parent of the child (who will be riding with another parent) must submit a note to the office by 8:30 the morning of the game (for our files) and need to follow up with a phone call to the office. Approval must be given by the school administration which could include the principal, assistant principal, Dean of Students or the Activities Director

JV and Varsity players are encouraged to stay with team and travel home on the bus together. Exceptions can be made for extenuating circumstances. In special cases these students can travel home with their own parent. In some circumstances students may ride home with another student's parent. In these cases this will only be allowed if the following procedure is followed.

- Parent of the child (who will be riding with another parent) must submit a note to the office by 8:30 the morning of the game (for our files) and need to follow up with a phone call to the office. Approval must be given by the school administration which could include the principal, assistant principal, Dean of Students or the Activities Director

**All students athletes are required to use school provided transportation to games.**
